Forward-Looking Statements

This presentation contains forward-looking statements concerning Coda Octopus Group, Inc. within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Those forward-looking statements include, without limitation, statements regarding the Company's expectations for the growth of the Company's operations and revenue. Such statements are subject to certain risks and uncertainties, and actual circumstances, events or results may differ materially from those projected in such forward-looking statements. Factors that could cause or contribute to differences include, but are not limited to, customer demand for our products and market prices; the outcome of our ongoing research and developments efforts relating to our products including our patented real-time 3D solutions; our ability to develop the sales force required to achieve our development and other examples of forward looking statement set forth to our Annual Report on Form 10-K for the year ended October 31, 2019 filed with the Securities and Exchange Commission on January 28. Coda Octopus Group, Inc. does not undertake, and specifically disclaims any obligation to update or revise such statements to reflect new circumstances or unanticipated events as they occur.

CEO Vision Statement

"To realize increased organic growth through the exploitation of CODA's revolutionary, proprietary subsea technology, and continued advancements in customized, rugged defense engineering. To increase our value proposition for the benefit of all stakeholders, including our employees, to reward their innovative contributions to the growth of the business."

- Annmarie Gayle, Chairman and CEO

Overview

- Established business with strong pedigree in marine technology and defense engineering:

Products Business

Market leader in real-time 3D imaging sonar technology for multiple subsea defense and commercial applications. World's only real-time 3D sonar technology – "seeing both static and moving objects and measuring in real-time in zero visibility conditions underwater."

Engineering Business

Long-established relationships with U.S. and U.K. Defense Primes, such as Raytheon, Northrop and BAE, with a number of proprietary parts for significant programs such as Phalanx CWS, yielding long-tail recurring and growing revenues.

- Strong culture of IP ownership in products' segment and sole supplier status by engineering segment
- Near-term catalysts - Ex. Thermite® Octal, DAVD, and 5D & 6D Echoscope® for additional growth across both business segments

How We Sell

COTS Products & Engineering Services

Products

Commercial off-the-shelf (COTS) product sales occur primarily through two channels:

- **Direct Sales:** Most sales occur through our Sales teams in both the U.S. and U.K.
- **Agents:** We also use a wide network of third party agents to expand our reach around the world.

Services

Our engineering services are primarily sold through:

- **Prime Partnerships:** We benefit from the small business allowance through our strategic relationships with primes such as Northrop Grumman, Raytheon, etc.

Delivering on Everyday Challenges Subsea

Complex Asset Placement – Alaska Monopod Installation

- Four Echoscopes® used to provide real-time visualization of landing site and control stabilization for crane operators
- Software 'models' provided real-time indication of distance and alignment with landing interface
- Conventional placement and positioning methods ineffective

Oilfield Disaster Recovery

- Survey and mapping of complex 3D 'Tendons' enabling fast and effective removal
- Conventional methods ineffective and displaced

3D Product Line

Delivering on Everyday Challenges Subsea

Mineral Mining - Diamonds

- Operator can "see" exactly where each cut has taken place
- No overlapping of cuts
- Significant productivity benefit

Marine Construction - Breakwaters

- Echoscope® is the No. 1 preferred solution for subsea placement
- Crane operator can "see" and "track" and "place" the moving block underwater
- Complete scene awareness for operators, engineers and owners
- Construction deliverable sign off using our technology

Strong Culture of IP

Total Product Package

- Multiple patents pending pertaining to recent technology innovations, such as 5D and 6D
- Patents cover the spectrum of software and hardware capabilities of Coda Octopus Group's unique real-time 3D technology
- Proprietary hardware and software are the complete system; components do not function independently
- Further de-risked by trade-secret optimization techniques

3D Real-Time Echoscope Technology Advantage

Real-Time Underwater Decision Making

- Removes **man out of the loop**, thus **reducing costs** significantly and **increasing repeatability** of common tasks
- Enhances Safety, again by removing **man out of the loop**
- Facilitates near impossible missions without **risking lives**
- Provides the vehicle for **mapping** the ocean floor (far and wide)

Key Growth Market

Defense, Navy Activities, Law Enforcement and Coast Guards

- Search & Rescue and Recovery Missions
- Asset Identification & Reacquisition
- See & Identify Targets and Hazards
- Record & Map to gather intelligence and analyze threats & hazards, before committing higher value assets
- Real-Time Surveillance
- Ship Hull Scanning

Unique technology to manage in real-time subsea threats

- Obstacle Avoidance for manned & unmanned missions
- Route Clearance Survey for foreign ports
- Mine & Threat location & identification
- Front end threat identification – landings, special forces incursion
- Port & Harbour Security
- Diving Applications

Real-Time 3D Imaging in Navy and Defense Applications

Strategic Development and Partnerships

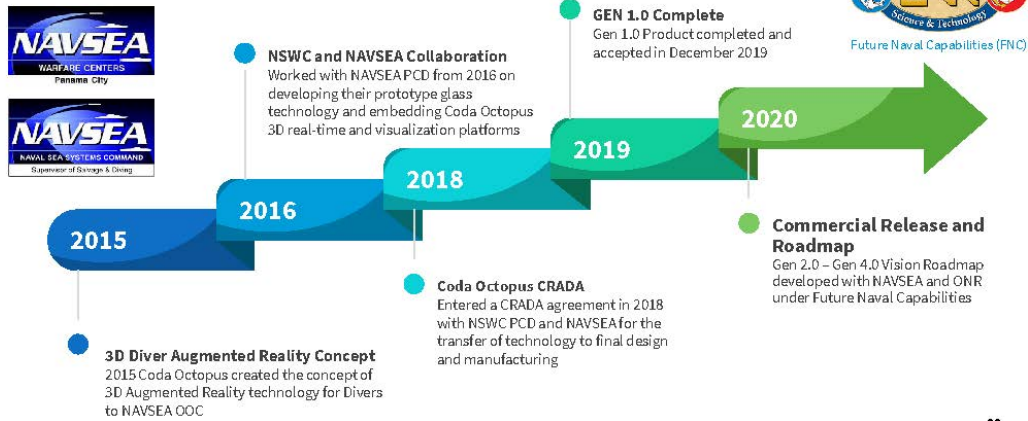

Momentum has grown significantly within the U.S. Navy community for CODA's industry-leading, real-time technology. The following groups are actively funding development, trials or purchases of Coda Octopus Echoscope® technology:

- Swimmer Delivery Vehicles
- Mine Counter Measures
- Ship Hull Inspection
- Salvage and Diver Support
- Critical Asset Inspection
- Real-Time Threat Detection

Echoscope® PIPE Series Structure

New Breakthrough Echoscope® 5-Dimensional and 6-Dimensional Sonars

Value Drivers

- 
- First mover in innovating and commercializing real-time 3D sonar technology for the subsea market
 - No other commercially available real-time 3D sonar in the market
 - Technically adept Group with strong brand as market leaders in real-time visualization subsea
 - Multiple initiatives underway with U.S. Navy and defense bodies, and tracking significant development funding for further research and development for defense space
 - Strong and growing global customer base and expanding market applications, including precious gem mining and offshore renewables
 - Strong Patents and Intellectual Property Rights Portfolio
 - Diversified Group, with two stand-alone engineering businesses, which have recurring streams of revenues through supplying proprietary parts into a number of funded U.S. Defense programs and UK Defense Programs, and the products business selling into the subsea market

Growth Catalysts

New Breakthrough Echoscope® 5-Dimensional and 6-Dimensional Sonars

- The world's only 5D & 6D real-time volumetric sonar technology, Echoscope® PIPE
- Gen 1 Diver Augmented Vision Display (DAVD) is approved for Navy Use and ready for Fleet Issue
- Thermite® Octal
- All Fourth Generation (4G) Hardware Products Have Been Launched
 - Smart algorithms for the class-leading sonars
 - Top-end software products for many new capabilities

Goal: Standardize proprietary real-time volumetric imaging sonars, in different form factors, across existing and new subsea markets

- Positioned to increase market share
- Defense market is significant opportunity; Addressable Market is estimated at \$2.685 billion

Growth Catalysts

- **Two new funded defense programs added to Colmek's portfolio in FY 2018**
 - Contracted to prototype two new parts for two significant programs. Value of contracted prototype is approximately \$1.5M
 - Once prototype phase is completed and manufacturing contracts awarded, these parts will yield long-tail recurring revenues
- **Thermite® Octal**
 - Next Generation Product Line Extension for additional growth
 - Colmek's rugged, configurable, versatile, high performance mission computer
 - Successfully completed its Military Specification (Milspec) environmental testing
 - Goal: Deliver new standard of field mobility to established Thermite® customer base
 - Technical refresh underway
 - Multiple Defense Applications
 - Man-worn robotic and backpack-worn
 - Manned/unmanned vehicles: airborne, land-based, maritime
 - Product roll-out of next generation of Thermite family of rugged embedded computers
 - Octal – initial next-gen Thermite technical refresh completed and now being promoted, including a number of significant customer trials – one of which is for integration into a military vehicle
 - Expect this product line to add \$3-\$7M to Colmek's revenues annually

Growth Catalysts

- **Long-tail recurring revenues from ongoing Defense Customer Programs**

- Proprietary Chemical Decontamination Systems
 - Component of the Eurofighter Tycoon's Ground Equipment
 - Used to decontaminate pilot helmets that have come in contact with chemical weapons
 - Contracted for two new units, at approximately \$300K per, in FY2018
 - Sales to date are approximately \$2.4M since program inception, in 2011

- **Increasing customer base via successful R&D Programs**

- Pump and Pressurization Controllers – Grundfos
 - Developed a series of proprietary fire sprinkler pump controllers in use by customers including Grundfos, a global leader in advanced pump solutions and trendsetter in water technology, as part of its FireSAFE product line
 - Developing a variant of the FireSAFE product, to address the requirements for sprinkler systems in high-rise residential installations, a growing market following the tragic Grenfell Tower fire in the UK
 - Forecasting sales of 1000 units in 2020
 - Designed and manufactured the pressurization controller, as part of Grundfos' Pressure Half Time (PHT) product line, used to maintain pressure in heating and cooling systems for residential and commercial applications
 - Shipped 3,000 pressurization controller unit order in FY 2018 to Q1FY2020
 - Forecasting repeat order of 3000 units in 2020

J. Charles Plumb, Captain, USNR (Ret.) – Director – U.S.

Captain Plumb has been a member of Coda's Board of Directors since September 2019. Captain Plumb is a retired U.S. Navy fighter pilot. On his 75th combat mission, just five days before the end of his tour in Vietnam, he was shot down over Hanoi, taken prisoner and tortured. During his nearly six years as a prisoner of war, he distinguished himself as a pro in underground communications. He was a great inspiration to all the other POWs and served as chaplain for two years. Following his repatriation, Captain Plumb continued his Navy flying career in Reserve Squadrons where he flew A-4 Sky Hawks, A-7 Corsairs and FA-18 Hornets. His last two commands as a Naval Reservist were on the Aircraft Carrier Coral Sea and at Fighter Air Wing in California. He retired from the United States Navy after 28 years of service. His military honors include two Purple Hearts, the Legion of Merit, the Silver Star, the Bronze Star and the P.O.W. Medal. He has been a motivational speaker, consultant and executive coach since 1973. His clients include General Motors, FedEx, Hilton, Aflac, the U.S. Navy, BMW and NASA. Since 2010, he has been member of the Board of Directors of the Lightspeed Aviation Foundation. Captain Plumb earned a B.S. in electrical engineering from the U.S. Naval Academy at Annapolis. We selected Captain Plumb because of his close ties to the U.S. Defense establishment.
